READ CAREFULLY AND FOLLOW INSTRUCTIONS

If you don't have your light installed within six (6) months after mailing your application, contact MSTBU at 335-2186, anyone will be happy to assist you.

QUALIFICATIONS: You must have three (3) occupied homes and be within 400' of each other on YOUR BLOCK. Remember the streetlight illuminates a small portion of the street, not your home.

NOT QUALIFIED: You can contact your ELECTRIC COMPANY and they will install a security light at a minimal charge. A security light illuminates a good portion of your property.

REPAIRS: YOU are to contact the ELECTRIC COMPANY. Give them the pole number and location of the light that needs repair.

MAP: Draw a map on the other side of this page! Give the location where the streetlight is requested. Start from either Lee Boulevard, Homestead Road, Leeland Heights, or Joel Boulevard. **A MAP MUST BE INCLUDED WHEN APPLYING FOR A STREETLIGHT.**
